See also the disclosure in the specification at, for example, page 10, lines 16-20 and Figs. 3 and 11.

In addition, claim 10 has been amended to recite the feature of the present invention whereby the air-conditioning unit is provided to be fitted into an opening that penetrates through a right side wall of the cab (such that the air-conditioning unit constitutes a part of a surface of the right side wall, as previously recited in claim 10), based on the subject matter of (now canceled) allowable claim 27.
